

## Lotus Domino 4.6

### Installing your Web Server Certificate

Your certificate will be sent to you by email. The email message includes the web server certificate that you purchased in the body of the email message. Copy the certificate from the body of the email and paste it into a text editor (such as notepad) to create text files.

### Installing your Web Server Certificate

Enter the **Server Certificate Administration** application.

Open Server Certificate Administration, the database you set up for your web server.

Select Install Certificate Into Key Ring.

**Install** your new server certificate.

### Configuring your SSL

Enter the **Server Certificate**
